

## ***Friends of Banyule's AGM***

*Friends of Banyule's* Annual General Meeting was held on 29 October 2009 at 7pm at the Old Shire Offices, 60 Beverley Road, Heidelberg. A copy of the [AGM Minutes](#) is now available.

It was a great turn out with standing room only left in the house. We would like to thank everyone who attended, including all our members, new members and the general public. Clearly, there is a lot of concern in our community for the proposed freeway/tunnel/viaduct.

If you would like to read an excerpt from our President, Marion Ware's Report, [click here](#).

We would also like to thank our keynote speaker, Greg Barber MLC for providing us with information on transport facts & issues, community influence and options for moving our campaign forward in the future. Question time afterwards was interesting and lively.

A couple of important points from Greg's address were 'never give up' and that our politicians will listen if we come together as a community as show our common voice in opposition to a project that clearly wont solve the transport issues currently facing us. It was also great to know that there have been some very successful campaigns in other areas of Melbourne when there was a large show of opposition from the community to the project.

Lets make ourselves heard... contact your Local, State and Federal MPs today and let them know you object to the proposed North-East Link freeway project ! You can find details of who to write to, email or phone on our ['What we Do' page](#) on the website - click on the 'What Else Can I do' link at the top of the page to take you to our politicians' contact details.
